## Primary Schools and Maintained Nursery schools Jan 07

1. Please insert (a) if the school is Welsh-speaking. A school is Welsh-speaking if more than half of the National Curriculum subjects including religious education but excluding English and Welsh, are taught wholly or partly in Welsh. Insert (b) if Welsh is used for less than half of the curriculum. Insert (e) for schools in neither of these categories.
  - 2 Include Maintained Nursery schools
- 3 Number on roll (NOR) should include any part-time pupils on a head count basis, but exclude all full-time and part-time pupils in a designated nursery class.
- 4 For 2006 and 2007: as indicated by the capacity assessment formula set out in Annexes A and B to circular 13/95, or in Assembly Guidance "Measuring the capacity of schools in Wales" ( please indicate which). From 2008, latter method should be used.

Non - permanent buildings which have been used as teaching accommodation for at least 3 years and where there are no plans for removal should be included.
- 5 A Standard Number (SN)/Admission no. is a fixed minimum entry number derived from the school's capacity.
- 6 Number of FTE nursery places which can be accommodated in the space available in a designated class. This should be recorded here and not in capacity.
- 7 Number of nursery pupils on roll in a designated class should be recorded here and not in NOR.
- 8 Temporary accommodation is only accommodation which is expected to be used for less than 3 years. It should not be included in the capacity calculation.
