Hi

The Surveillance Camera Commissioner has put a responsibility on Local Authorities to justify any deployment of surveillance cameras via a Data Protection Impact Assessment (Previously Privacy Impact Assessment - P.I.A). Such assessments are now required before deploying any new cameras and for assessing the continuing need for existing cameras. PIA's consider whether there is a justified need for the deployment of cameras, for example serious, frequent antisocial behaviour. It also considers the impact on those subjected to the surveillance, whether such actions are proportionate to the problem they aim to address and if other less intrusive measures have been considered e.g., improved lighting, gating, warden patrols, increased police patrols etc.

The system at Fleur De Lys is due for its annual review and I am contacting all relevant / interested parties for their views on CCTV to enable us to make an assessment on the continued use of CCTV. Attached are some statistical information for your area in previous 12 months 01/12/21 to 30/11/22

**.Under General Data Protection Regulations 2016 and Data Protection Act 2018 we need to make you aware with how we will deal with your data. Your comments will be published as the DPPIA is a published document on the CCBC website under the CCTV section. Email addresses and phone numbers will be removed.**

**If possible could you reply by 31/01/23**

CCTV Control Room – Fleur De Lys

1648 targeted CCTV patrols carried out by operators  
3 incidents / situations monitored by CCTV not requiring police attendance  
5 police request for assistance for live incidents  
5 police requests to view retrospective CCTV footage after incident has already occurred.  
1 Incident CCTV uploaded directly to Police database

Police.uk website

For period 01/12/21 to 30/11/22 there were 366 recorded incidents in the Pengam ward and 60 recorded incidents in or near the area of the cameras.

I would appreciate if you could confirm by return email your views on the requirement for CCTV and giving reasons why you believe it should or should not continue.

Thanks

Hi

Carl, From a Community safety point of view the CCTV is imperative with tackling the anti social behaviour, crime and disorder within the area. It offers the residents of the area reassurance and confidence, as well as giving us the opportunity to monitor issues and identify persons of interest.

With issues being identified and evidence being provided from these cameras throughout the last 12 months, I think that there is a justifiable need for the CCTV to remain in place.

Thanks

Carl

I am the Crime and Disorder Reduction Officer for Caerphilly North. The statistics below support the requirement for the CCTV to remain at the location. They provide assistance for Investigations in the Detection of Crime, and bringing offenders to justice. They also provide public reassurance and are supportive of Crime Prevention tactics.

Greg

Dear Carl Nesling,

I would like the camera to stay as it supplies vital surveillance to the area, although the area is not burdened with as much deviance as some areas. I have had complaints from people smoking drugs outside the Tavern and hopefully the camera will preclude people from acts of deviance such as these. Business owners have also commented that they feel more confident with the camera in place.

Kind regards

Hello Carl

I notice in the figures you provided, that there has been just a small number of police requests to use footage gained from the CCTV camera in Fleur De Lys. I don't know how these figures compare with other areas, but the figures notwithstanding, most people I have spoken to support the continued placement of this camera at this location.

Furthermore, Cllr Heron and myself have discussed the CCTV provision at Fleur De Lys with the local police, and they told us they regarded this camera as invaluable, and want it to continue to be sited here.

To that end, I endorse its continued use at Fleur De Lys.

The same applies to CCTV Perm167 at Cefn Fforest. I note with this location, a slightly higher number of police requests and see that 4 DVD's were provided for evidential purposes.

Given this information, there seems a real need for this camera to be sited here and I support its continued placement and operation.

Thanks

Cllr. Shane Williams

Good Morning Carl.

I would like to echo what Cllr Shane Williams has stated.

The visit to the police proved invaluable, we discussed the CCTV, and it became apparent the use of such cameras were vital in crime prevention and the detection of offenders. I also fully endorse the continued use of CCTV in Fleur-De-Lys.

Kind Regards

Cllr. Teresa Heron
