### **Background**

Each year, Caerphilly, like all local authorities must approve proposals to set a balanced budget and agree a council tax rate. Ongoing budget pressures caused by a number of unprecedented factors means that Caerphilly (along with others), is facing significant financial challenges with a projected £48million gap in finances over the next two years.

The council prepared a set of draft budget proposals for 2023/24 for consideration by Cabinet on 18<sup>th</sup> February 2023. There were three key elements to the proposals:

- A one-off use of council reserves in 2023/24 totalling £15.051million. Caerphilly has healthy reserves at present, the majority of which are ring-fenced and ear-marked for specific schemes. However, an element of the funds can be used as a contingency for a 'rainy day'.
- Permanent and temporary savings totalling £12.421m have also been identified to help balance the budget for 2023/24. The one-off use of reserves and temporary savings in 2023/24 provides a short-term fix and will buy time to reshape services to address the significant financial challenges that lie ahead.
- A proposed increase in Council Tax by 7.9% for 2023/24. This would increase the Band D precept from £1,253.95 to £1,353.01 (an annual increase of £99.06 or £1.91 per week).

Cabinet agreed that the draft budget proposals for 2023/24 should be subject to a period of consultation prior to final proposals being presented to Cabinet/Council on 22<sup>nd</sup>/23<sup>rd</sup> February 2023.

The full budget report can be found here:

https://democracy.caerphilly.gov.uk/ieListDocuments.aspx?Cld=128&Mld=13905&LLL=0

#### 'What matters' conversation

Through the council's ongoing engagement programme 'The Caerphilly Conversation' residents have given their views and helped the council to gain an understanding of the services that residents feel are most needed and valued and where residents feel the council should prioritise its budget spend. The most recent phase of engagement "What matters to you?", took place during November and early December 2022. The insights from this engagement were key in shaping the draft budget proposals for 2023/24.

Please visit <u>www.caerphilly.gov.uk/caerphillyconversation</u> for a detailed report on this phase of the engagement.

# **Purpose**

The consultation was designed to seek the views of residents and key stakeholders in relation to the three key elements of the draft budget proposals, namely, the use of £15.051million reserves at this time, the proposed increase in council tax of 7.9% and the draft list of savings proposals (both temporary and permanent) totalling £12.421million.

## Methodology (what we did)

The consultation period ran from 19<sup>th</sup> January to 8<sup>th</sup> February 2023 and was widely promoted via:

- A media release <a href="https://www.caerphilly.gov.uk/news/news-bulletin/january-2023/have-your-say-on-budget-proposals">https://www.caerphilly.gov.uk/news/news-bulletin/january-2023/have-your-say-on-budget-proposals</a>
- A dedicated web page linked directly from a banner on the home page of the Council's website
- Regular digital media posts throughout the duration of the consultation period including Facebook,
   Twitter and NewsOnline. 4 NewsOnline e-mail newletters were sent during the consultation period.
   Annex 4d summarises feedback via social media.
- Posters and pull up banners displayed in libraries and other public facing Council venues
- Targeted e-mails to stakeholder groups and seldom heard communities in the borough

Residents were encouraged to give their views in a variety of ways:

#### Survey

A survey was made available on the Council's website. The survey could be completed online or printed if preferred. Hard copies of the survey were also available from all libraries across the borough and could also be returned via libraries or through the post. The survey focussed specifically on the three main aspects of the draft budget proposals as outlined. A copy of the survey can be found in **Annex 1**.

278 completed surveys were received by the closing date.

- 91% indicated that they were residents of the county borough whilst 4% were staff (n=272).
- 57% were female, 42% were male and 2 people (1%) described themselves as non-binary (n=246).
- 23% considered themselves to have a disability (n-244)
- Respondents ages ranged from 24 to 84 with 55% of respondents in the 50+ age group (n=233)

#### Face to face engagement

#### **Drop-in sessions**

A series of informal face-to-face drop-in sessions for residents were arranged at libraries across the borough. Three online face-to-face sessions were also scheduled. As far as possible, these sessions were held on different days of the week and different times of the day, including early evening, to enable as many people as possible to attend. They were also planned to coincide with times of highest footfall at individual libraries.

See **Annex 2** for the schedule of planned face-to-face engagement sessions.

The purpose of the face-to-face sessions was to clarify details around draft budget proposals for residents, answer any questions relating to specific areas within the proposals and gather feedback, either through conversation and through encouraging those spoken with to complete the survey (either in hard copy) or online. Please refer to **Annex 4a** for a summary of key points raised during the face to face conversations at libraries.

#### **Viewpoint Panel meeting**

The Viewpoint Panel is a group of residents who are regularly invited to get involved in the council's engagement and consultation activities. Anyone who is resident of the borough can join. Having not met face-to-face since before the pandemic, members of the Viewpoint Panel were invited to attend a meeting on 2<sup>nd</sup> February at Penallta House.

In total, 10 members of the Viewpoint Panel and 5 young people from the Youth Forum attended the meeting and were welcomed by the Leader of the council. In focus groups, attendees then discussed whether they agreed or disagreed with the proposed increase in council tax, the proposed use of reserves and any savings proposals they particularly agreed or disagreed with. The groups then went on to discuss how the council could do things differently moving forward to enable the council to prioritise the services that are considered most important to residents. A summary of the Viewpoint Panel discussion can be found in **Annex 4b**.

#### Targeted engagement with stakeholders and seldom heard groups

Key individuals, groups and organisations across the borough were contacted directly via e-mail and asked to promote and share details of the engagement with their contacts/members. Local community groups were also invited to attend the Viewpoint Panel meeting.

**Annex 3** details resident and stakeholder groups contacted and notes where there was face-to-face engagement. **Annexes 4e-g** include written and e-mail responses received directly from residents.

#### **Voluntary Sector Liaison Committee**

A meeting of the Voluntary Sector Liaison Committee was held on 2<sup>nd</sup> February 2023. **Annex 4c** provides a summary of the discussion and key points raised.

# **Key Findings**

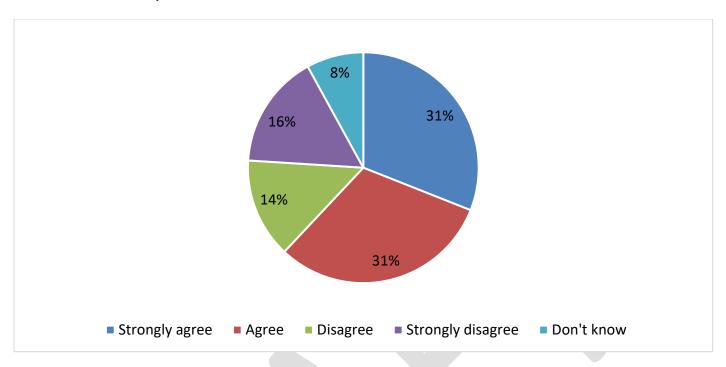

Note: The statistical data (percentages) presented within this report relates to survey responses and not the qualitative feedback from conversations. The number of responses received for individual questions may be lower than the total number of completed questionnaires returned. Percentages are therefore based on the number of responses to individual questions (n=number of responses).

Participation in the consultation was self-selecting. The data should be considered within this context.

#### Proposed use of reserves

As shown in **Graph 1**, 62% or survey respondents agreed or strongly agreed with the one of use off reserves at this time. Feedback received through face-to-face conversations and survey comments highlighted that in many cases, where residents disagreed with the proposal, it was because they felt that the council should be using more of its reserves at this time. A number commented that a greater understanding about what the reserves are ringfenced for would be useful.

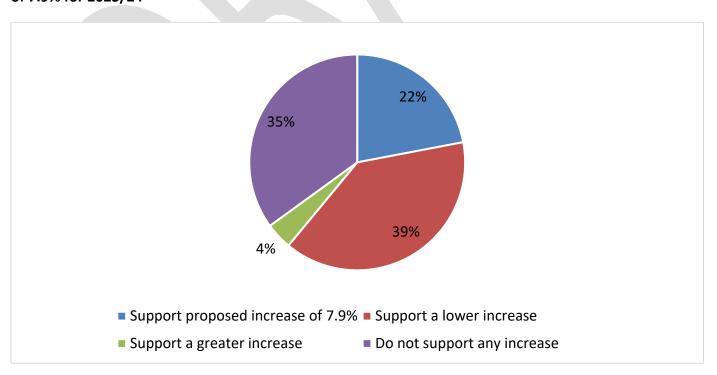

Graph 1: Percentage of respondents (n=271) who agree/disagree with the one-off use of council reserves of £15.051m for 2023/24

#### **Proposed Council Tax increase**

Overall, 26% agreed with the proposed council tax increase or would be prepared to pay more. A further 39% would support a lower level of council tax increase whilst 35% would not support any increase in council tax. This is highlighted in **Graph 2**.

Graph 2: Percentage of respondents (n=271) who agree/disagree with the proposed council tax increase of 7.9% for 2023/24

Feedback from conversations with residents reflected this view. Whilst many said that they understood the need to increase council tax to maintain services, there was concern that, at this time, any increase in council tax would impact on those least able to afford an increase. A number also commented that certain communities receive "less" and therefore did not agree with the increase across the borough.

"I know you must raise the Council Tax, but the only people this will affect is the working class who are struggling at the moment." (survey comment)

#### Draft savings proposals – temporary and permanent

The survey asked respondents to identify up to three draft proposals that they particularly agreed with and three that they particularly disagreed with.

A number of people said that they disagreed with all of the proposed savings. Conversely, a number indicated that there was nothing on the list caused them any concern.

**Table 1** summarises the survey responses in relation to the proposals that respondents particularly agreed with.

Table 1: Proposals that respondents to the survey particularly agreed with

Agree	Count
CS2 All services - reduction in mileage budgets	46

# **Key themes**

Through an analysis of both the survey responses and face to face conversations, the following key themes emerged.

Areas of the proposals that respondents particularly agreed with:

- A reduction in mileage budgets to reflect new ways of working
- Deletion of vacant posts and vacancy management across the organisation

- Grass cutting to improve biodiversity (where there was disagreement with this proposal it was through concern over the appearance of the borough)
- Budget realignment and cuts to grants/subsidies that will have no impact on residents (e.g. Carbon Reduction Commitment scheme, areas where funding could be provided by other sources)
- Income generation through felled timber, increase in charges for MOTs etc.
- A reduction in in the tourism subsidy, venues could generate income through visitor attendance

#### Proposals particularly disagreed with:

- A temporary reduction in the highways maintenance budget was considered to be short term thinking, particularly considering the poor condition of roads following recent inclement weather
- A reduction in voluntary sector support- at a time when charities and voluntary sector are being expected to support people more was considered to be counterproductive. In particular,
  - there was a strong response in the survey to the 50% reduction in caretaker support for community centres and the removal of the subsidy to Markham community centre. Further discussion with individual community centres was suggested as the impact would not be the same across all centres.
  - cuts to community grants, in particular the Community Empowerment Fund (before it has had a chance to become established)
- Any cuts to social services that will impact on the most vulnerable residents in our communities
  were considered unacceptable. This view strongly reflects the those expressed as part of the
  earlier 'What matters' conversation. Cuts to services for children with disabilities (and cuts to
  SENCOM) were of particular concern. It is felt that the current provision is inadequate and
  questioned that there is a lack of demand for these services. Many have been unable to access
  services due to a reduction in provision during the pandemic and there as an unknown demand for
  services moving forward.

"Children services - should not be cut. Children's services are struggling as it is. They cannot be supported appropriately without the correct resourcing" (comment from survey)

- Cuts that will impact on schools and education were not supported i.e. schools to manage 50% of
  increased energy costs, removal of school crossing patrols. This is reflective of the feedback
  received through previous engagement, where residents told us that we should prioritise
  education.
- Libraries residents feel that libraries are a vital part of the community and could be used more. A reduction to the book fund was considered acceptable for one year only but longer term would have a greater impact on those who need the library service.
- Youth services were considered important in helping to support young people now and laying foundations for the future. Youth services can help tackle wider issues such as anti-social behaviour in the community.
- Whilst income generation was considered a positive way forward, there were mixed views regarding income generation through increased charges for services that are accessed by residents and the community (e.g. review of sports and leisure fees, an increase in sports pitch fees).

The removal of subsidy for the rail link service was met with a mixed response. Residents felt that the level of subsidy was too high to be maintained, but suggested alternative routes may be more viable (nearest train station to Blackwood is Pengam) and suggested that the service could be opened up to non-rail users.

A lack of public transport, in general, and more specifically, a lack of integration between public transport was an issue for many residents spoken to. This was a concern particularly in enabling those who do not drive/cannot afford a car to access essential services.

#### Doing things differently

The following themes were highlighted through conversations with residents:

- Asset rationalisation through selling buildings that we no longer need. Many felt that we should be ensuring that Penallta House is fully utilised and look at selling other smaller buildings across the borough.
- Energy efficiency will help reduce costs e.g. ensuring buildings are fully occupied. Take advantage of the new agile way of working to close older, less efficient buildings.
- Run the Council as a business efficiently remove bureaucracy, look at the processes in place and
  consider how these can be changed to provide a better service more efficiently. Reducing staffing
  levels too much can impact on how services are delivered residents would prefer to see the
  recruitment of frontline staff over more senior positions in delivering essential services.
- Income generation should be explored further, particularly if this can be done without charging residents more for services.
- There is a need to take a strategic overview of services, how they are delivered and how they work together rather than 'salami slicing' cuts.
- Ensuring social value and protecting the most vulnerable in our communities should be core to everything we do.
- Improve how the council engages and communication with residents. There was positive feedback from the face-to-face sessions. Residents were appreciative of the opportunity to gain a greater understanding of the proposals and give their views. The council could communicate more effectively about what it provides in a way that residents can understand and not 'council speak'.
